DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Rostron et al. US Pat. 6,316,742.

Rostron teaches a low voltage comprising:

positive opening operation mechanism at least part of the kinetic energy to be transmitted to the actuating device; and for each pole a double interruption device.

Allowable Subject Matter

3. Claims 1-13 are allowed over the prior art of record.
